Personal Profile

I am an experienced Azure Administrator and skilled web designer with a strong background in cloud infrastructure management and creating user-centric websites. I specialize in leveraging Azure services for scalable IT solutions and designing responsive, modern web interfaces. My focus is on delivering innovative and secure solutions tailored to organizational needs.

Work experience

Admin & Finance
Hargeisa Local Government, hargaisa,somalia
Mar 2021 - Sep 2023

Professional Experience
Azure Administrator
[01/10/2021] to [11/15/2021]

- Designed, deployed, and managed Azure cloud infrastructure, including virtual machines, storage accounts, and databases.
- Configured and optimized Azure networking solutions, such as Virtual Networks, Application Gateways, and Load Balancers.
- Ensured compliance with organizational policies using Azure Security Center and Azure Policy.
- Automated operational processes with PowerShell scripts and Azure CLI.
- Monitored system performance and optimized resources to reduce operational costs.

Web Designer
[01/10/2021] to [11/15/2022]

- Designed and developed responsive websites using HTML, CSS, JavaScript, and modern frameworks such as React and Bootstrap.
- Collaborated with clients and stakeholders to create user-friendly interfaces aligned with branding guidelines.
- Ensured cross-browser compatibility and implemented SEO best practices to optimize web visibility.
- Integrated third-party APIs and CMS solutions for dynamic and scalable websites.
- Conducted usability testing to improve user experience and functionality.

programing language
apwork, hargaisa,somalia
Sep 2023 - Jul 2025
